Welcome to the POPAI Awards 2017. Our 11th ceremony celebrating success and excellence across the industry is something of a milestone for us, as it also marks the 25-year anniversary of POPAI – so this year we are in an extra-celebratory mood.

The Awards offer us all the chance to come together as an industry, celebrating achievements and innovations across all aspects of the shopper experience.

Change in the sector continues apace. But in spite of obvious and well-documented societal and industry uncertainties, it's encouraging to see our industry continuing to push boundaries, marching confidently forward.

Creativity lies at the heart of success in our industry and our Awards showcase best-in-class retail display. Interactive, digital technology or structurally ingenious cardboard – the industry's ability to constantly reinvent itself is never better demonstrated than here at the Awards.

At POPAI, we are frequently asked, 'What does good look like?' Well, our Awards competition has amassed over 600 best-in-class case studies out of nearly 2000 entries over the last 11 years and you can view these in detail in our new Benchmark search engine on the POPAI website.

So, next time you pose the question, or are asked, 'what does good look like?', you can use the POPAI Award entries to benchmark your work.

As always, I would like to pay tribute to the dedication and hard work of the POPAI Awards judges. They volunteer their time, expert opinion and objective eye, setting the bar for our award-winning entries, and we are indebted to them.

A big thank you must also go to our sponsors. Without their support, we simply could not afford to run the Awards as we do. So we welcome their valuable input in helping us run these occasions.

So a toast to all our winners tonight, our judges and our sponsors, as we once again celebrate the wonderful industry in which we work.

Martin Kingdon

Director General – POPAI UK & Ireland
